Stake your claim at Lumina – a 9.5-hectare health and innovation hub within the Gold Coast Health and Knowledge Precinct (GCHKP). Explore a range of opportunities across freehold commercial land, office spaces, suites, and labs tailored to meet the needs of forward-thinking businesses and innovators.

About Lumina Gold Coast

Lumina is the final stage in the 200-hectare GCHKP, in Southport, Queensland, and is your last chance to co-locate with hospitals, universities, and established health and tech businesses in a precinct featuring over \$5 billion in health, education, transport, and residential infrastructure. Lumina is the Gold Coast's prime location for businesses in the health and technology sectors, offering a commercial cluster with unique opportunities for co-working and leasing with co-location with hospitals, universities and world-class medical, tech and research businesses. Plus, with 30% of all space for lease reserved for general business, you can take advantage of this prime leasing opportunity and all the benefits of being part of Lumina, no matter your industry.

The Opportunity: Prime Commercial Spaces for Lease

Start, grow or expand your business by leasing prime commercial space at Lumina. Expressions of Interest are welcome from all industries – including health, life science, tech, innovation and general businesses – keen to bring their ideas to light in a strategic location with in-built industry connections.

Lumina partners with Australia's leading property developers and design innovators to deliver state-of-the-art, world-class office, medical and research spaces in the heart of the GCHKP. Benefit from being part of this connected economic hub, where you can leverage commercial and collaborative partnerships with internationally recognised researchers and specialised services. Join a vibrant community in Australia's fastest-growing major city – the Gold Coast – and access the support of the GCHKP Precinct Office to facilitate opportunities for your business to collaborate with universities, hospitals and more.

The population of the Gold Coast is estimated to grow by 50% by 2040, indicating significant growth and opportunity. In terms of potential, the Gold Coast outperforms Brisbane, Sydney, and Melbourne, showcasing the advantages of an economy that competes with capital cities.*

Acknowledgment of Country

We acknowledge the Traditional Owners for the land and waters of the place we now call Lumina at the Gold Coast, their elders past and present, and to all Aboriginal and Torres Strait Islander Peoples. We acknowledge that we stand on the sacred Country of the Yugambeh people whose lands were never ceded.

*Gold Coast Economic Outlook 2024

If we've sparked your interest in bringing your health, life sciences or tech business to light at Lumina, contact EDQ at lumina@edq.qld.gov.au and the team will be in touch to talk through your business needs.

About EDQ

Economic Development Queensland (EDQ) – the Queensland Government's land use planning and property development agency – is facilitating the development of the Lumina health, life sciences and tech innovation hub over the next 10 to 15 years as landowner, master developer and planning authority. EDQ's vision for Lumina is to curate a sustainable, world-renowned health and knowledge community on the Gold Coast powered by collaboration and innovation.

Why Lumina?

The many benefits of being located at Lumina:

Co-located with Griffith University & the Institute for Biomedicine and Glycomics

Located in Australia's fastest-growing major city: the Gold Coast

Co-located with 2 hospitals: Gold Coast University Hospital & Gold Coast Private Hospital

Major arterial access with signage & visibility opportunities to 50,000 motorists daily

Co-located with established tech & medical businesses

Excellent public transport access including G:link light rail

\$5 billion in health, education & transport infrastructure at the GCHKP

Close to domestic & international airports

Cohort Innovation Space & business community, home of LuminaX: Australia's largest healthtech accelerator

50 minute drive to Brisbane & 70 minutes via express train

Vibrant community hub with places to eat, shop, work & socialise

Extensive parklands & recreational spaces including the Southport Sharks entertainment precinct

Adjacent to residential & retail community the Smith Collective

16 minute drive to Surfers Paradise

Access to 30,000 people living, working & studying at the Gold Coast Health & Knowledge Precinct

300 days of sunshine each year & close proximity to beaches for an enviable coastal lifestyle

Anchored by Griffith University, Gold Coast University Hospital and Gold Coast Private Hospital, the Gold Coast Health and Knowledge Precinct and its Lumina commercial cluster is a prime investment location for healthcare and tech innovation, particularly in medical and digital health technologies.

At Lumina, the GCHKP Precinct Office is supporting businesses, hospitals and universities to collaborate and bring the future of medicine and technology to light, today. By offering an ecosystem of connected innovative businesses, researchers, technology innovators and medical facilities with complementary skills and offerings – all embedded in an entrepreneurial culture – at Lumina we're creating not just a location but the perfect environment to spark world-class innovation.

Who's Already Sparking Innovation at Lumina

All around the world, cluster precinct models have been proven to accelerate business collaboration, growth and success. And here at Lumina, we're already seeing ground-breaking achievements come to light. World-renowned businesses, centres, institutes and researchers at the precinct are delivering research excellence and technological innovation. They're combining new materials with digital technologies, AI, and machine learning to customise surgeries and to develop bespoke medical implants, diagnostic tools, nanotechnologies, wearable health devices, advanced neurorehabilitation technologies and more.

Who We're Inviting to Join the Lumina Innovation Hub

Lumina is the ideal destination to establish or expand your business with prime leasing opportunities in a world-class ecosystem designed to foster collaboration and innovation.

Lumina is seeking expressions of interest for lease of premium commercial spaces tailored to businesses of all sizes from any industry, including those offering new, innovative ideas or market-ready solutions in:

- Advanced design & additive manufacturing
- Big data, data analytics & translatable applications
- Artificial intelligence, machine learning & robotics
- Biotechnology
- Micro / nanotechnology & next generation materials
- Medical imaging, devices, wearable technologies & diagnostics
- E-health & health software, integrated healthcare & medical technology
- Human genomics, chronic diseases & infectious diseases
- Human healthcare
- Paediatrics
- Support services & supply chains for life sciences, health & technology-related businesses
- General business from any industry.

Commercial Spaces for Lease at Lumina

Looking to lease office, suites or lab space? Lumina is the premier location to grow your business.

The Opportunity

Lumina offers state-of-the-art offices, labs, and research spaces for lease within the Gold Coast Health and Knowledge Precinct (GCHKP). Ideal for solo operators, SMEs, or established businesses of any size needing space to start or grow their business, Lumina offers prime leasing opportunities from shared desks to multiple floors.

By leasing at Lumina you will position your business for success, becoming part of a connected economic hub where you can leverage long-term commercial and collaborative partnerships with internationally recognised researchers, hospitals, universities and specialised services in the GCHKP.

While Lumina is a precinct designed for tech, life sciences, health and innovation businesses to thrive, 30% of all leasing space is reserved for general business. Lumina offers benefits to all its business tenants –including being part of a connected hub with access to 30,000 people living, working and studying at the GCHKP – we welcome Expressions of Interest from businesses at any stage of growth and from any industry.

Cohort Innovation Space

Spaces available for lease now

Cohort is a business community and shared workspace hub supporting health and technology startups – along with companies from any industry – with co-working, research, and event spaces. Cohort provides support for startups to launch new products and grow their companies globally via their programs and network of entrepreneurs, mentors, industry experts and partners. The Cohort Innovation Space is managed by CoSpaces, an Australian pioneer in co-working and commercial management.
